

ADASLINK[®]

Calibration and Diagnostic Scan Tool

Key component to
your ADAS business

Pre- and post-scan
reports

Full diagnostic
capabilities

Secure gateway
coverage

Guided calibration
capabilities

Automotive diagnostic scan tool

DYNAMIC CALIBRATION CAPABILITIES

Hunter's ADASLink® scan tool enables technicians to quickly perform and document steering system resets after an alignment as well as easily fit dynamic ADAS calibrations and test drives into your service offerings. The scan tool also seamlessly integrates with Hunter aligners for faster work and improved documentation.

PRE- AND POST-SCAN

Get a comprehensive look at installed systems and associated codes.

SPECIALTY USES

Code/pair new parts to the vehicle after installation, such as electric power steering components.

BRAKE SERVICE

Service electric parking brakes and perform other brake diagnostics, including ABS.

FULL DIAGNOSTIC CAPABILITIES

Review diagnostic trouble codes and other vehicle information

SECURE GATEWAY COVERAGE

FCA coverage for secure gateway vehicles, with supplemental coverage to other tools in your shop.

POST-COLLISION CALIBRATIONS

Follow guided processes to calibrate required systems after a collision.

ADASLink® available in North America only.

ADASLink® OEM Coverage

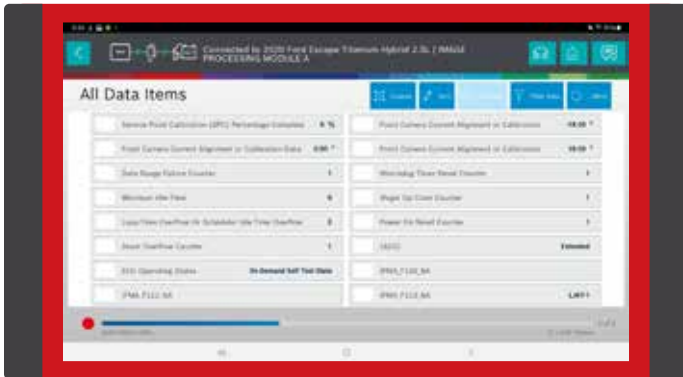

PLUS OLDER MODELS

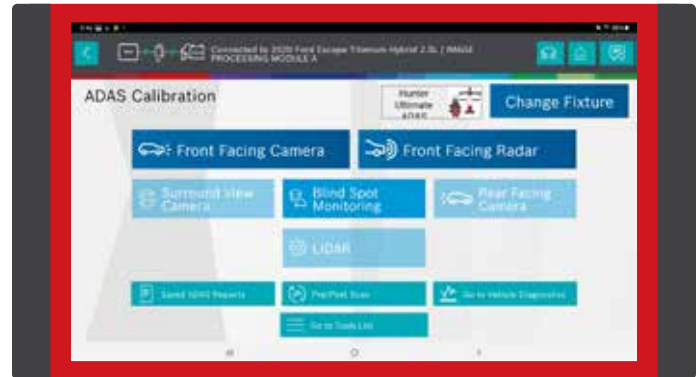

Work smarter, not harder

MAKING SHOP-WORK EASIER

Record and playback data

Screen-record data item, procedures, and diagnostics to review and play back.

Step-by-step ADAS guided capabilities

ADASLink® provide clear, step-by-step procedures for static and dynamic calibrations.

Full scan report documentation

Comprehensive documentation for customers and insurance companies verify calibrations were completed correctly.

Topology reporting interface

View reports in a topological display to help pinpoint areas requiring repair.

Bidirectional control

ADASLink® allows users to control features within the vehicle and collect data readings from them.

Connectivity with external databases

ADASLink® connects to external subscription resources like Repair-Source, Mitchell1, AllData, and more to easily view procedure specifications.

Key Features

YOUR WORKSHOP WILL THANK YOU

ADVANCED VEHICLE COVERAGE

Fix Domestic, Asian,
and European vehicles
as far back as 1996.

LONG-LASTING BATTERY LIFE

Up to 14 hours of runtime and
weeks of standby, giving you
more time on tool and less time
on the charger.

ULTRA FAST FULL SYSTEM

Scans with Quick-Scan
complete vehicle scans
in 60 seconds.

CHARGING STATION

Recharge easily with a
dedicated station for your
handheld screen and VCI.

WIRELESS J2534 VCI

Wireless gives you the freedom
to move throughout the bay;
J2534-compliant for factory
programming with your OE
subscription and PC.

LEADING TECHNOLOGY HARDWARE AND SOFTWARE

Offers peak performance on
an expandable, future-proof
platform. Powered by Android 9+.

OEM-APPROVED FOR SECURE VEHICLE ACCESS

FCA-certified for Secure Gateway
Module (SGW) access.

LIMITED LIFETIME WARRANTY

We've got you covered in the rare
case something isn't working as
it should.

10" TABLET INTERFACE

Resolution Display Ultra crisp
screen quality for easy viewing,
even in bright daylight.

Perform Steering Angle Sensor Resets

Over 140 million vehicles on the road today require a reset/recalibration of the steering angle sensor (SAS) following a wheel alignment, as instructed by the vehicle's manufacturer on certain cars equipped with Electronic Stability Control (ESC). Hunter's ADASLink® and Hunter alignment systems provides a simple, integrated solution that addresses reset requirements per specific OEM.

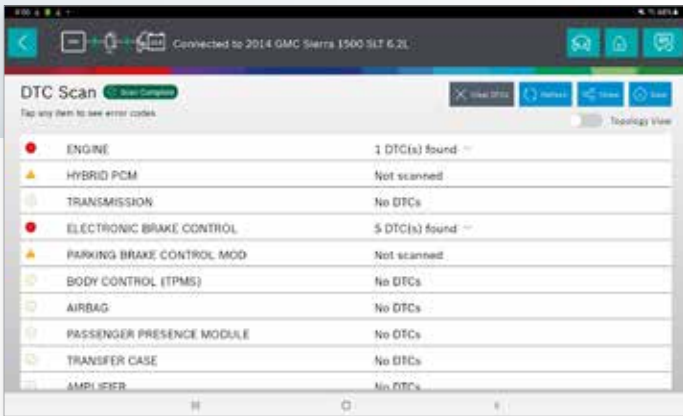

Control your aligner software from anywhere in the bay

The ADASLink® scan tool's screen mirroring technology gives technicians the power to view and control the alignment software from anywhere in the bay. View live measurements while making adjustments in the rear. Or view adjustment images plus the tools and kits needed at the touch of a finger. All helping you get the job done right, fast, and easy.

Modernize your alignment bay with ADASLink®

IT'S THE WIN MORE BUSINESS TOOL

ADASLINK® IMPROVES REVENUE

DTC Scan:

- ✓ Detect faults with no warning lights present
- ✓ Uncover additional repair opportunities with a pre-scan
- ✓ Provide peace of mind with responsible service

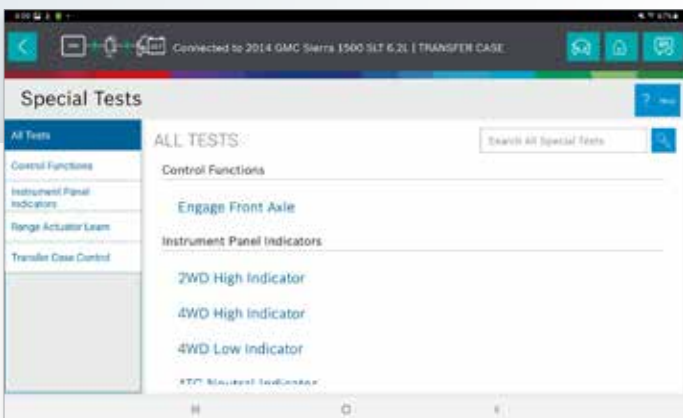

ADASLINK® IMPROVES EFFICIENCY

Steering System Calibration:

- ✓ Integrated component of wheel alignment system
- ✓ Required resets and calibrations prompted at start of alignment
- ✓ Guided path for OEM requirements

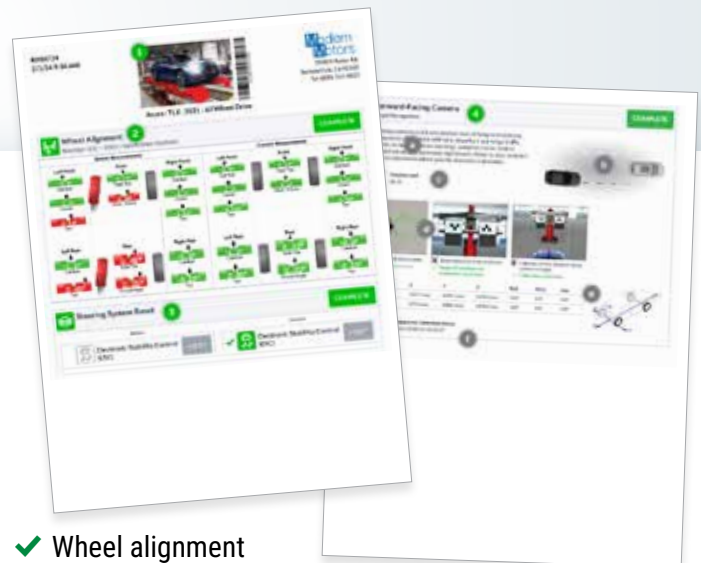

ADASLINK® IMPROVES VALUE

Special Tests:

- ✓ Covers more than electronic resets and dynamic calibrations
- ✓ Full diagnostic capabilities, including bi-directional controls, links to service information sites and advanced programming

WORLD-CLASS DOCUMENTATION

- ✓ Wheel alignment data, pre- and post-scans, SSR completion and dynamic calibration
- ✓ Available directly from printer and saved in HunterNet®2

ADAS ensures peace of mind for your customers

Dive into ADAS!

Learn the six steps on how to get started

- ✓ Learn about the market opportunity
- ✓ Understand how much space is needed, or more often, not needed
- ✓ Grow your business with the right tools for your shop
- ✓ Get expert training and support for your technicians
- ✓ Establish what you will charge for ADAS calibrations
- ✓ Communicate ADAS needs with your customers

ARE YOU FAMILIAR WITH ADAS?

Explore articles and videos to learn how ADAS works and why it is important.

ARE YOU PREPARED FOR ADAS?

Access Hunter Learning to stay on top of the jargon and processes and prepare for what lies ahead.

ARE YOU EQUIPPED FOR ADAS?

Discover important factors in researching ADAS equipment and how to build a profitable business.

Plus customer testimonials, ROI calculators, coverage/lookup guides, tool reviews, expert articles, and more!

Support and Implementation

ADAS LEARNING TOOL

Help simplify the ever-complicating conversations around ADAS

Hunter's free ADAS Learning Tool is an interactive informational website designed for both shops and consumers

 **BREAKS DOWN** sophisticated ADAS procedures and terminology into easy-to-understand topics

 **AVAILABLE FOR FREE** to access and use – works on touchscreen tablets or desktop computers

 **DESIGNED TO ASSIST** counter workers or allow customers to explore on their own

 **EASY-TO-DIGEST ADAS PROCEDURES** separated into four main categories – camera, radar, ultrasound, internal

 **PROVIDES BRIEF OVERVIEWS AND IMAGES** for ADAS procedures and components to aid with in-person discussions

 **INTERACTIVE EXPLORATION** and color-coded display to learn about the specific ADAS components

DYNAMIC ADAS CALIBRATION

DYNAMIC ADAS CALIBRATION IS PERFORMED WHEN THE VEHICLE IS IN MOTION AND REQUIRES A RELIABLE CALIBRATION TOOL.

A nearby highway with clear lane markings and little traffic so vehicles can reach speed without obstructions will be most convenient.

STATIC ADAS CALIBRATION

STATIC ADAS CALIBRATION IS SPECIFICALLY TAILORED FOR A WORKSHOP ENVIRONMENT AND REQUIRES A CALIBRATION FIXTURE.

ADAS calibrations do not require huge amounts of floor space. The majority of forward-facing calibrations can be performed in almost any well lit shop with evenly diffused and distributed lighting (avoid direct sunlight or other directional lighting).

The space should have level floors if not using ADAS equipment that compensates for non-level floors, and the surrounding area should be neutral in color and clear of geometric patterns.

- 1) Minimum: 25 ft. x 34 ft.
- 2) Recommended: 30 ft. x 45 ft.
- 3) Optimal: 40 ft. x 60 ft.

Faster work, improved documentation, win more work

INTEGRATE WITH ALIGNERS AND CALIBRATION FIXTURES

HUNTER ALIGNMENT SYSTEM

HawkEye Elite® X

- ✓ Expands your service offerings
- ✓ Complete dynamic (driving) ADAS calibrations
- ✓ Secure gateway compatibility
- ✓ Steering angle sensor resets and pre- and post-scan ready

HUNTER ALIGNMENT SYSTEM + STATIC CALIBRATION FIXTURE

Ultimate ADAS®

- ✓ Perform dynamic calibrations and wheel alignment in the same bay, with the same equipment.
- ✓ Streamlined connectivity
- ✓ Perform wheel alignments plus static and dynamic ADAS calibrations

BOSCH STATIC CALIBRATION FIXTURE

DAS 3000

- ✓ Complete static calibrations
- ✓ On-screen guided positioning with ADASLink®
- ✓ Powered by Bosch
- ✓ First year of static calibration software included

25+ million vehicles with static or dynamic calibration procedures

ADAS COVERAGE GUIDE

Hunter's ADAS Coverage Guide provides broad calibration and alignment information for all vehicles

With this comprehensive tool, service advisors can identify required ADAS calibrations or resets before writing up the work order – avoiding the perception of discovering additional work after the vehicle is on the alignment rack.

The guide covers hundreds of vehicle models from 2006 through the present. It designates the necessary Hunter ADAS equipment to complete the work – including Ultimate ADAS®, ADASLink® scan tool, and DAS 3000 static calibration fixture. Mechanical wheel alignment adjustments and steering system resets are also included.

ACCESSIBLE VIA THE HUNTERNET® 2 ONLINE PORTAL, OR CONTACT YOUR LOCAL HUNTER TEAM TO OBTAIN A PRINTED VERSION

USER-FRIENDLY DESIGN

Static and dynamic calibration coverage is easily accessible for service advisors and customers

ADASLINK® SPECIFICATIONS

- ✓ Dual front and rear cameras
- ✓ Complete diagnostic needs:
 - › AutoID
 - › Read/Clear DTCs from all controllers
 - › Data PIDS
 - › Bi-directional controls
 - › Calibrations, Resets, Relearns, and Coding
- ✓ Go To ADAS button for quick navigation
- ✓ Faster processing with Android® 10, expandable SD card, and up to 512GB storage
- ✓ Built-in Wi-Fi and dual Wi-Fi cards to maintain web and wireless VCI connection
- ✓ Customizable data display, graph, and color – display up to 16 data items and graph eight data items

- ✓ Search, filter, and print saved reports
- ✓ Integrated steering wheel holder

Includes:

- › Scan tool and docking station
- › Wireless VCI
- › 5-ft OBDII cable with battery voltage display
- › Tablet power supply (2-ft and 6-ft)
- › VCI power supply (1)
- › Carry bag

2 ft. cable

6 ft. cable
