Stop chasing weights

- ✓ Superior balance results in a single spin

How does SmartWeight® deliver the best balance?

Separates hop & wobble imbalance forces

Assigns a lower threshold to hop forces, similar to manufacturer facilities

Hop
(static)

Wobble
(couple)

This provides the **best balance** as modern vehicles are far more sensitive to hop than wobble.

Improves appearance

- ✓ Smaller weights are less visible
- ✓ Places weights on inside of wheel when possible

Track labor & weight savings

- ✓ Labor savings shown in minutes and hours as well as dollars with every spin.

Reduce weight usage

- ✓ **30% less weight used**
- ✓ Save money on every balance

Did you know?

Modern vehicles are approximately 4 times more sensitive to hop forces than wobble. Conventional balancers treat both the same.
