

Mercedes-Benz

Customized workshop equipment

HTA-MB-TD Wheel Alignment

Hunter alignment technology is the industry's standard and is specifically engineered for Mercedes-Benz vehicles.

The latest software is REQUIRED when utilizing Mercedes-Benz's Wheel Alignment Machine program.

Approved equipment for all Mercedes-Benz workshops and vehicle requirements.

Customized WinAlign® software guides the technician through the process.

Accurate alignment targets are lightweight and easy-to-install.

Choose from a variety of **sensor configurations** to fit your workshop.

+ Mercedes-Benz

Alignment lift rack options

Hunter alignment lift racks customized for Mercedes-Benz are equipped with MKS alignment sensor brackets.

Each model features low-profile 2-stage ramps and Swing Air Jack to easily raise vehicles for wheel-off service.

The only Mercedes-Benz approved alignment rack for Sprinter

4PMB Four-Post MKS alignment lift
18,000-lb. capacity

RX12K Scissor MKS alignment lift
12,000-lb. capacity

Enhance your shop's service capabilities

Road Force® Elite Wheel Balancer

The world's fastest diagnostic wheel balancer solves vibration problems and provides the "new car ride" using the diagnostic load roller.

Tire Changers

Hunter's tire changer lineup includes everything from automatic and center-clamp styles to traditional table-top clamping. Choose from many different bead press assistance options to make tire changing easy for your technicians.

Autonomous Tire Inspection

Powered by Quick Tread Edge®, accelerate your tire business by checking edge-to-edge tire tread on every car that visits your shop, no stopping or labor required.

Let your local Hunter team help you.
